Invitation

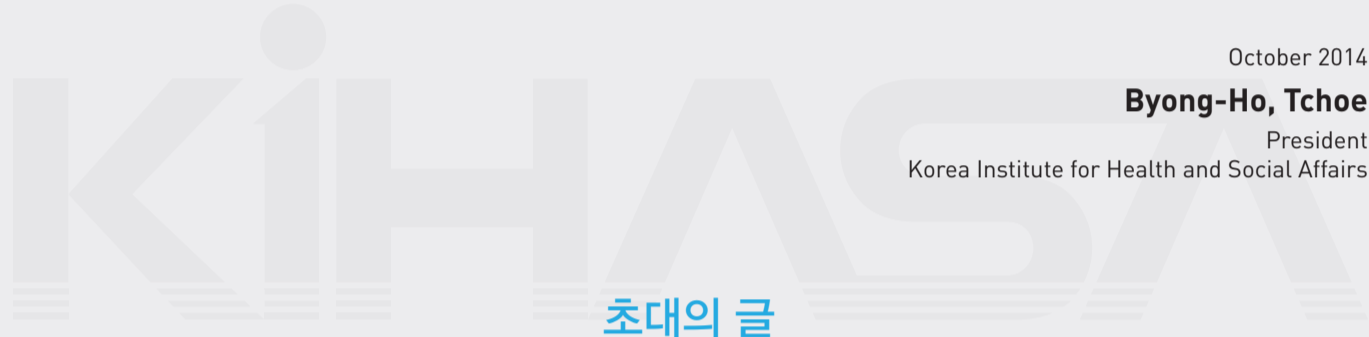

It is with great enthusiasm that I invite you to "the 1st Family Policy Seminar in Asia and the Pacific: Fertility Transition and Family Policies in the 21st Century," organized by the Korea Institute for Health and Social Affairs and the OECD Korea Policy Centre.

Thanks to the impressive economic growth in the late 20th century, East Asia became one of the most important regions in the world economy. The recent trends of fertility decline, however, are threatening the sustainable economic development and social stability in this region. Due to these growing concerns over a population crisis, several governments of East Asian countries began to take actions to make their fertility rebound, many of which were introduced from Western developed countries.

It is important to learn lessons from advanced nations. It would be more important, however, to know ourselves first. Any attempt to introduce policies of foreign countries will face limitations unless we sufficiently consider the context to which such policies are introduced, which is our own history and culture, as it would affect the eventual policy effectiveness. I believe this international conference will be an opportunity to know ourselves better by enabling us to know each other better, our differences and similarities.

By joining us at this conference, you can meet family policy experts from regions, including Korea, China, Japan, Singapore, Hong Kong China, Thailand, and Vietnam. They will present their countries' data concerning family structures, family labor market positions, and family and child policies, which were collected in a format in accordance with the OECD Family Database standards and highlight major policy issues of their countries.

Come join us in our search for effective countermeasures against a looming population crisis in East Asia. We look forward to your valuable contribution.

안녕하십니까. 결실의 계절 가을, 여러분을 한국보건사회연구원과 OECD 대한민국 정책센터가 공동으로 개최하는 '제1회 아·태 지역 가족정책 전문가 국제 세미나'에 초대합니다.

이번 국제 세미나의 주제는 '21세기 동아시아 국가들의 출산율 전환과 가족정책 비교'입니다. 그동안 동아시아 국가들은 놀랄만한 경제 발전을 이룩하여 세계 경제에 중요한 위치를 차지하게 되었습니다. 그러나 최근 저출산 추세가 계속 되면서 동아시아 국가들의 지속가능한 발전이 위협받고 있습니다. 위기 대응책 마련을 위해 지금까지 우리 정부와 학계는 서구 선진국의 사례들을 주로 살펴보았습니다. 그러나 우리나라에 서구와 다른 우리만의 고유한 정책 환경이 존재한다면 서구 사례의 단순한 모방은 효과를 거두기 힘들 것입니다.

이번 세미나에서는 한국, 중국, 일본, 싱가포르, 홍콩, 태국, 베트남의 가족정책 전문가들이 모여 OECD에서 제공하는 Family Database에 있는 지표들에 맞춰 수집된 각국의 가족구조, 일·가정 양립 및 가족정책 관련 자료들을 비교 논의 합니다. 동아시아의 인구 및 가족구조 변화 양상과 각국의 대처방안을 살펴봄으로써 우리의 정책 환경에 보다 적합한 대응책이 모색될 수 있을 것입니다.

이번 세미나가 동아시아의 인구 위기를 극복하고 새로운 미래를 여는 장이 될 수 있도록 오셔서 의견 주시고 성원하여 주십시오. 감사합니다.
