

## **Introduction to the Special Feature on Population in Asia**

The volume 5 of the *Japanese Journal of Population* features two articles on Population in Asia. The first article by Dr. Toru SUZUKI (NIPSSR) is a result from the FY2006-2008 Research Project on "the Effects of Work Patterns of Both Sexes on Low Fertility in East Asia" (Principal Investigator: Dr. Toru SUZUKI) funded by a Scientific Grant from the Ministry of Health, Labour and Welfare (H18-Seisaku-005). The second article was presented at the Foreign Scholar Lecture given by Dr. Bhakta GUBHAJU (UNESCAP) at the National Institute of Population and Social Security Research on February 14, 2006.
